DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

AMENDMENT

In the Specification:

Page 1, line 16, "punctuate" has been changed to --puncture--; line 22, "punctuating" has been changed to --puncturing--.

Page 2, line 8, "punctuation" has been changed too --puncture--.

Page 3, line 22, --314-- has been added after "plate".

In the Claims:

Claim 1, line 20, "at where" has been deleted.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: None of the prior art discloses or suggests the combination of the upper needle lock and the lower needle lock, wherein the upper needle lock includes a scalene cone externally expanding toward the side of the lower needle lock, and having a groove provided and surrounding the external circumference of the upper needle lock and being divided into an upper groove and a lower groove by a partitioning plate, wherein the lower needle lock comprises a through hole and a flange, in combination with the other recited elements.

Shyu, US 2003/0060775 A1, is the closest prior art and discloses upper and lower needle locks 60, 30, but fails to disclose the other claimed embodiments recited above. Novacek, US 5,415,638 discloses a variety of retractable needle syringes exemplifying the state of the art. Ranford, US 4,950,241, and Haining, US 4,790,822, disclose retractable needle syringes having break-away plungers. Verlier, US 4,915,692 discloses what could be termed as a single lock syringe, but fails to show any of the other claimed elements. Accordingly, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
